Dear Brother,

Greetings in our wonderful Lord's name.

I wanted to give you an update on my wife's condition. As many of you know, she was diagnosed with dementia. She is losing ground every day. She stays confused and from time to time fearful.

My children are taking turns staying with us around the clock. That sure has been a great help.

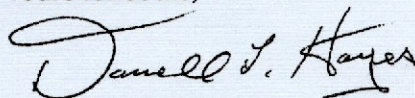

Because she requires constant care, I have cancelled all of my meetings. I have missed being with all of you in the meetings but this is God's will for me for now.

I do not know how long of a journey that this will be but as the song says:
"It's been a long journey, but I have been blessed."

He has promised sufficient grace, and he has been true to his word!

Thank you so much for your friendship and prayers. I am very grateful for the love offerings, also ...very, very helpful.

Yours for souls,

Dr. Darrell L. Hayes
